PROFESSIONAL EXPERIENCE

FSS (Financial Software & Systems), Chennai | Tech Lead (Apr 2020 - Present)

Led merchant and operations portals for REDKITE and IPPB including on-boarding, MIS reporting, risk profiling, key exchange, EMV/PIN processing, routing, settlement and monitoring. Managed customer coordination, requirements, L2 support and team leadership. Part of migrating the existing software version to PA DSS compliant version.

Product Name: FSS PoSability, which receives transactions from ATM's or point-of-sale systems and routes them to bank switches or issuers in accordance with specifications. It will maximize card and transaction validation while lowering switch load and expense.

Worldline India Pvt Ltd, Chennai | Team Leader (Dec 2018 - Mar 2020)

Developed POS payment applications for AXIS Bank and YES Bank supporting sale, refund, void, settlement, pre-auth, QR/UPI, PCPOS and Contactless transactions on Ingenico Tetra devices.

Renovite Payment Solutions, Chennai | Team Leader (Aug 2017 - Nov 2018)

Built unattended vending machine payment solutions for Genfare USA using Bezel8 terminals with EMV and TMS integration.

Marshal Equipment & Trading Company, Dubai | Computer Programmer (Mar 2014 - Aug 2017)

Developed and supported POS applications for National Bank of Bahrain, Orient Bank Uganda and Credimax Bahrain, including EMV, DCC, ECR integration, TMS and Android-based payment applications.

Transactions: Sale, Refund, Void, Tip, Tip Comp, Pre Auth, Pre Auth Comp.

Devices: VeriFone VX510, VX520, VX675, VX680 and VeriFone e265.

EMV Certification: VISA, Master Card.

KEY ACHIEVEMENTS

- Delivered large-scale banking payment solutions across multiple countries
- Led critical production support and customer escalations
- Implemented EMV, ISO8583, settlement and transaction routing enhancements
- Managed development teams and successful project deliveries
